The Formula 500 is a curvaceous machine
with bold red styling that matches the

attitude of the recently upgraded Rotax
499cc liquid-cooled twin that sits under
the hood. This is a sassy little twin with
even more attitude for '98 thanks to the
addition of exhaust valve modifiers.

The 98 Formula 500 usually dynoed at
94-95 H.P. There was no difference
between the MXZ And the Formula's
engine both had the same top end. They

Acces PDF 1997 Ski Doo Formula 500 Deluxe 583 Z

both had the 502 valve (159 degree). The only difference was the one piece pipe/muffler, the Formula had a extra resonance section at the end (to make it quieter). I don't know if either pipe made any more H.P.
