balanced introductions to the most recent scholarship on Darwin and his intellectual legacies.

With fresh interpretations from two new authors, wholly reconceived themes, and a wealth of cutting-edge scholarship, the Fifth Edition of *America: A Concise History* is designed to work perfectly with the way you teach the survey today. Building on the book's hallmark strengths—balance, explanatory power, and a brief-yet-comprehensive narrative—as well as its outstanding full-color visuals and built-in primary sources, authors James Henretta, Rebecca Edwards, and Robert Self have shaped *America* into the ideal brief book for the modern survey course, at a value that can't be beat.

Designed for students in Nebo School District, this text covers the Utah State Core Curriculum for chemistry with few additional topics.

4LTR Press solutions give students the option to choose the format that best suits their learning preferences. This option -- combining an easy-reference, paperback book with Chapter Review Cards -- is perfect for those students who focus on the textbook as their main course resource.
