At last, a more inspired approach to business. Business Genius describes how to grow your business more effectively through intelligent strategy and imaginative leadership, radical innovation and sustained change. Combining the entrepreneurial passion of a start-up with the commercial rigour of large enterprises... this is for everyone who seeks the inspiration to think and act differently. Business Genius helps you drive more profitable, sustainable growth in today's fast changing and connected markets. It explores the challenges of strategy and innovation, leadership and change as you grow your business, and yourself, in order to achieve high performance. From the craze for Crocs to the cool of Diesel, the secrets of Kikkoman and energy of Red Bull, the vision of Google and disruption of Current TV, the revolution of P&G and the phenomenon of Umpqua – the book captures the best insights from around the world, and a new agenda for today's business. Seeing things differently is the foundation of genius. Connecting your left and right brain to think more holistically, exploring opportunities from the future back as well as now forward – then doing business from the outside in rather than the inside out, in order to turn radical ideas into practical action.

The little black book of marketing is here. Marketing guru Peter Fisk's inspirational manual of marketing shows you how to inject marketing genius into your business to stand out from the crowd and deliver exceptional results. Marketing Genius is about achieving genius in your business and its markets, through your everyday decisions and actions. It combines the deep intelligence and radical creativity required to make sense of, and stand out in today's markets. It applies the genius of Einstein and Picasso to the challenges of marketing, brands and innovation, to deliver exceptional impact in the market and on the bottom line. Marketers need new ways of thinking and more radical creativity. Here you will learn from some of the world's most innovative brands and marketers – from Alessi to Zara, Jones Soda to Jet Blue, Google to Innocent. Peter Fisk is a highly experienced marketer. He spent many years working for the likes of British Airways and American Express, Coca Cola and Microsoft. He was the CEO of the world's largest professional marketing organisation, the Chartered Institute of Marketing, and lead the global marketing practice of PA Consulting Group. He writes and speaks regularly on all aspects of marketing. He has authored over 50 papers, published around the world, and is co-author of the FT Handbook of Management. "Marketers who want to recharge their left and right brains can do no better than read Marketing Genius. It's all there: concepts, tools, companies and stories of inspired marketers." —Professor Philip Kotler, Kellogg Graduate School of Management, and author of Marketing Management "A fantastic book, full of relevant learning. The mass market is dead. The consumer is boss. Imagination, intuition and inspiration reign. Geniuses wanted." —Kevin Roberts, Worldwide CEO Saatchi & Saatchi, and author of Lovemarks "This is a clever book: it tells you all the things you need to think, know and do to make money from customers and then calls you a genius for reading it." —Hamish Pringle, Director General of Institute of Practitioners in Advertising, and author of Celebrity Sells "This is a truly prodigious book. Peter Fisk is experienced, urbane and creative, all the attributes one would expect from a top marketer. The case histories in this book are inspirational and Peter's writing style is engaging and very much to the point. This book deserves a special place in the substantial library of books on marketing." —Professor Malcolm McDonald, Cranfield School of Management, and author of Marketing Plans "Customers,

brands and marketing should sit at the heart of every business's strategy and performance today. Marketing Genius explains why this matters more than ever, and how to achieve it for business and personal success" —Professor John Quelch, Professor of Business Administration at Harvard Business School and author of New Global Brands "Marketing Genius offers marketers 99% inspiration for only 1% perspiration." —Hugh Burkitt, CEO, The Marketing Society

Time and space. Genetics and robotics. Education and fashion. Possibilities limited only by our imaginations. The future is yours to create. Could you be the Leonardo da Vinci of our times? Most ideas are incremental, quickly copied and suffocated by conventions. "Future back" thinking starts with stretching possibilities then makes them a reality "now forward". The best ideas emerge by seeing what everyone has seen, and thinking like nobody else. Newness occurs in the margins not the mainstream. Solutions emerge through powerful fusions of the best ideas into practical, useful concepts. Creative people rise up. Visionaries, border crossers and game changers. Engage your right brain, open your eyes, think more holistically... intuition rules. From Apple to Blackberry, GE to Google, innovative companies stand out from the crowd not so much for their exceptional products, despite what one might assume, but for the way they challenge conventions, redefine markets, and change consumer expectations. Apple didn't just create the iPod; it envisioned the future of music and then made a product to service that future. And the same holds true for every highly innovative company. In Creative Genius, Peter Fisk presents ten tracks for innovation and provides business blueprints for making that innovation happen. Creative Genius is inspired by the imagination and perspective of Leonardo da Vinci, in order to drive creativity, design and innovation in more radical and powerful ways. It includes practical tools ranging from scenario planning and context reframing to accelerated innovation and market entry, plus 50 tracks, 25 tools, and 50 inspiring case studies. Creative Genius is "the best and last" in the Genius series by bestselling author Peter Fisk. Others include Business Genius, Marketing Genius and Customer Genius.

Create your next breakthrough Mad Genius is a unique book for entrepreneurs--and for employees who want to think like entrepreneurs. It will help you unleash the innate creative genius inside you. Every industry has its sacred cows and accepted practices. These are often based upon foundational premises that are no longer valid--if they ever were. There's a reason Facebook was birthed in a dorm room, Amazon.com came from people not in the bookstore business, and UBER was created by people who weren't from the taxi industry. Innovation, discovery, and creating disruption require blowing up conventional thinking and unleashing your entrepreneurial brilliance. Mad Genius is a fire hose of creative stimulation that will spark breakthrough ideas and show you how to nurture them. Get ready to think different.

From a co-founder of Pixar Animation Studios—the Academy Award–winning studio behind Coco, Inside Out, and Toy Story—comes an incisive book about creativity in business and leadership for readers of Daniel Pink, Tom Peters, and Chip and Dan Heath. NEW YORK TIMES BESTSELLER | NAMED ONE OF THE BEST BOOKS OF THE YEAR BY The Huffington Post • Financial Times • Success • Inc. • Library Journal Creativity, Inc. is a manual for anyone who strives for originality and the first-ever, all-access trip into the nerve center of Pixar Animation—into the meetings, postmortems, and “ Braintrust ” sessions where some of the most successful films in history are made. It is, at heart, a book about creativity—but it is also, as Pixar co-founder and president Ed Catmull writes, “ an expression of the ideas that I believe make the best in us possible. ” For nearly twenty years, Pixar has dominated the world of animation, producing such beloved films as the Toy Story trilogy, Monsters, Inc., Finding Nemo, The Incredibles, Up, WALL-E, and Inside Out, which have gone on to set box-office records and garner thirty Academy Awards. The joyousness of the storytelling, the inventive plots, the emotional authenticity: In some ways, Pixar movies are an object lesson in what creativity really is. Here, in this book, Catmull reveals the ideals and techniques that have made Pixar so widely admired—and so profitable. As a young man, Ed Catmull had a dream: to make the first computer-animated movie. He nurtured that dream as a Ph.D. student at the University of Utah, where many computer science pioneers got their start, and then forged a partnership with George Lucas that led, indirectly, to his co-founding Pixar in 1986. Nine years later, Toy Story was released, changing animation forever. The essential ingredient in that movie ’ s success—and in the thirteen movies that followed—was the unique environment that Catmull and his colleagues built at Pixar, based on leadership and management philosophies that protect the creative process and defy convention, such as: • Give a good idea to a mediocre team, and they will screw it up. But give a mediocre idea to a great team, and they will either fix it or come up with something better. • If you don ’ t strive to uncover what is unseen and understand its nature, you will be ill prepared to lead. • It ’ s not the manager ’ s job to prevent risks. It ’ s the manager ’ s job to make it safe for others to take them. • The cost of preventing errors is often far greater than the cost of fixing them. • A company ’ s communication structure should not mirror its organizational structure. Everybody should be able to talk to anybody.

Why can some organizations innovate time and again, while most cannot? You might think the key to innovation is attracting exceptional creative talent. Or making the right investments. Or breaking down organizational silos. All of these things may help—but there ’ s only one way to ensure sustained innovation: you need to lead it—and with a special kind of leadership. Collective Genius shows you how. Preeminent leadership scholar Linda Hill, along with former Pixar tech wizard Greg Brandeau, MIT researcher Emily Truelove, and Being the Boss coauthor Kent Lineback, found among leaders a widely shared, and mistaken, assumption: that a “ good ” leader in all other respects would also be an effective leader of innovation. The truth is, leading innovation takes a distinctive kind of leadership, one that unleashes and harnesses the “ collective genius ” of the people in the organization. Using vivid stories of individual leaders at companies like Volkswagen, Google, eBay, and Pfizer, as well as nonprofits and international government agencies, the authors show how successful leaders of innovation don ’ t create a vision and try to make innovation happen themselves. Rather, they create and sustain a culture where innovation is allowed to happen again and again—an environment where people are both willing and able to do the hard work that innovative problem solving requires. Collective Genius will not only inspire you; it will give you the concrete, practical guidance you need to build innovation into the fabric of your business.

Hello, I am your customer. Do you see the world like I do? It's simple really. Start with me and everything else follows. Together we can do extraordinary things. Are you ready? 10 building blocks, 30 practical tools, 50 inspirational stories. From Amazon to Banyan Tree, Quintessentially to Zipcars, explore 50 of the world's leading customer businesses. The rise of Air Asia, and the collaboration of Boeing; the segmented focus of Club Med, and the customer vision of Disney; the imagination of Camper, and the desire for the Nintendo Wii; the realism of Dove, and the tribal loyalty of Harley Davidson. The 'genius' of a customer-centric business is that it works from the outside in. It attracts, serves and retains the best customers as its route to profitability and growth. Isn't it about time you started doing business from the outside in?

Shows how the most creative minds in science used tools that can help us improve our creative abilities. Geniuses are not omnipotent. They are just very skilled at employing the creativity toolbox highlighted in this book, including finding the right question, observation, analogy, changing point of view, dissection, reorganization, the power of groups, and frame shifting.
