Hospital Planning and Designing | Modern Hospital Building ...

Some consider cancer center design the same as any healthcare setting, utilizing a traditionally methodic design approach driven by function and operations. While functionality is essential to any healthcare environment, buildings that provide cancer care must encompass characteristics that address the distinctive aspects of the cancer patient and the care team, which are both unique.

HCD Mag

Designing the Cancer Centre. The new Cancer Centre at Guy's has been designed by award-winning architects to put patients at the heart of what we do. The building brings most of our cancer services under one roof and provides a hub for specialist cancer services, training, development and research for south east London.
