Cellular

Respiration And

Study Answer Key

| dev ...

Cells require
chemical energy
to function.

Energy cannot
be recycled, so
organisms
require a
constant input

Download Free Cellular

of energy, which is why humans need to eat. The

process that requires oxygen and converts food into chemical energy (in the form of ATP) is cellular respiration.

Cellular

Cellular
Respiration
Study Guide
Answer Key
Vls1td

The purpose of
cellular
respiration is
to make usable
energy for the

Download Free Cellular

cell. Instead of Red Bull or Monster Energy, cellular energy takes the form of a compound called ATP (short for adenosine triphosphate). ATP is often called the energy currency of the cell. The

Download Free Cellular

end product of
cellular
respiration is
exactly 38
molecules of
ATP.
