Change Request Management  
(CHARM) with SAP Solution Manager.  
In a SAP environment in particular, it  
is often essential to be able to  
execute changes (both big and small)  
and entire projects in parallel. SAP  
Solution Manager gives you an ITIL-  
compliant Change Request  
Management (ChaRM) system that

# Online Library Change Request Management With

assists you in the execution and monitoring of activities for all of the changes to your IT systems.

## ~~Change Request Management (CHARM) with SAP Solution Manager~~

For Change Request Management, you need to create the RFC destinations from SAP Solution Manager to those systems in your managed landscape where you want to control the software changes via Change Request Management.

Change Request Management requires a READ, TMW, and a trusted RFC connection to every managed system and client.
