From this simple yet original premise, Anthony Minghella's Cigarettes and Chocolate draws back the layers of façade that colour our every conversation and discourse, highlighting the deterioration of language from an honest means of communication to an instrument of deceit. Although a typical product of late-1980s Thatcherite culture, director Emily Galvin's production at the ADC succeeds in planting Minghella's play firmly in the 21st century.

Radio Drama brings together the practical skills needed for radio drams, such as directing, writing and sound design, with media history and communication theory. Challenging the belief that sound drama is a 'blind medium', Radio Drama shows how experimentation in radio narrative has blurred the dividing line between fiction and reality in modern media. Using extracts from scripts and analysing radio broadcasts from America, Britain, Canada and Australia, the book explores the practicalities of producing drama for radio. Tim Crook illustrates how far radio drama has developed since the first 'audiophonic production' and evaluates the future of radio drama in the age of live phone-ins and immedate access to programmes on the Internet.

First Published in 1995. Routledge is an imprint of Taylor & Francis, an informa company.

This book, first published in 1999, addresses Beckett's visual and musical sensibilities, and examines his visionary use of such diverse modes of creative expression as stage, radio, television and film, when his medium was the written word. The first section of the book focuses on music; the second part analyses the visual arts; and the third part examines film, radio and television. This book uncovers aspects of his thinking on, and use of the arts that have been little studied, including the nonfigurative function of music and art in Beckett's work; the 'collaborations' undertaken by composers, painters and choreographers with his texts; the relation of his literary to his visual and musical artistry; and his use of film, radio and television as innovative means and celebration of artistic process.

This revised and updated edition of The Creative Writing Handbook now includes new chapters on writing for stage and radio and on writing screenplays for film and television. Written by professional writers and tutors, it covers all aspects of the writing process, from drafting first thoughts to shaping them into polished and publishable work. In a series of lively and stimulating chapters, all major areas of writing are explored, from screen-writing to short fiction, from autobiography to experimental prose. The Handbook offers new and experienced writers a whole range of creative ideas, sound advice and open-ended tasks for exploring experience, mastering technique and thereby releasing the full potential of the imagination. As most taught courses in creative writing are in workshop form, each chapter includes invaluable ideas on how to run group sessions and offer a rich fund of suggestions for developing writing beyond the workshop.

This is a companion to The Creative Writing Handbook - now in its second edition. It is very much aimed at the individual writer, based on the idea that real writing comes from within and that writing is a craft, skill with determination, art with attitude. The book is filled with useful ideas and inspiring techniques for exploring and exploiting resources available, both within and without. It focuses on three major areas - the writer's roots (family, class and gender), the writer's resources (memory and language) and the writer's art (form and technique). Chapters focus on many topics, including how memory shapes a writer's material, the pro-creative force of words and the ambiguities of art and artfulness. Many examples of established writers' works are cited to give the fledgling writer much practical help.
