THE RACE OF THE LOSSES OPPORTUNITIES Cognitive Ecology li

Research in cognitive ecology has expanded rapidly in the past decade, and this second volume builds on the foundations laid out in the first, published in 1998. Cognitive Ecology II integrates numerous scientific disciplines to analyze the ecology and evolution of animal cognition. The contributors cover the mechanisms, ecology, and evolution of learning and memory, including detailed analyses of bee neurobiology, bird song, and spatial learning.

Cognitive ecology II by Reuven Dukas, 2009, University of Chicago Press edition, in English

Cognitive ecology II (2009 edition) | Open Library

This book is an attempt to describe cognitive ecology, which focuses on the ecology and evolution of "cognition," defined as the neuronal processes concerned with the acquisition, retention, and use of information. It presents new work on established and emergent research programs relating cognition to avian ecology.

Cognitive Ecology II

Cognitive ecology is the study of cognitive phenomena within social and natural contexts. It is an integrative perspective drawing from aspects of ecological psychology, cognitive science, evolutionary ecology and anthropology. Notions of domain-specific modules in the brain and the cognitive biases they create are central to understanding the enacted nature of cognition within a cognitive ecological framework. This means that cognitive mechanisms not only shape the
