A vivid portrayal of the Civil War. Johnny, fourteen, convinces his mother to let him join a wagon train carrying food to Confederate soldiers. He has been brought up to believe that all blacks are stupid; thus, when captured by a black Union soldier who insists that Johnny teach him to read, he deliberately tricks him. The boy is surprised the soldier saves him from imprisonment and their relationship grows throughout the book.

A brilliantly conceived and vividly drawn story—Washington, D.C. on the eve of Abraham Lincoln's historic second inaugural address as the lens through which to understand all the complexities of the Civil War. By March 4, 1865, the Civil War had slaughtered more than 700,000 Americans and left intractable wounds on the nation. After a morning of rain-drenched fury, tens of thousands crowded Washington's Capitol grounds that day to see Abraham Lincoln take the oath for a second term. As the sun emerged, Lincoln rose to give perhaps the greatest inaugural address in American history, stunning the nation by arguing, in a brief 701 words, that both sides had been wrong, and that the war's unimaginable horrors—every drop of blood spilled—might well have been God's just verdict on the national sin of slavery. Edward Achorn reveals the nation's capital on that momentous day—with its mud, sewage, and saloons, its prostitutes, spies, reporters, social-climbing spouses and power-hungry politicians—as a microcosm of all the opposing forces that

had driven the country apart. A host of characters, unknown and famous, had converged on Washington—from grievously wounded Union colonel Selden Connor in a Washington hospital and the embarrassingly drunk new vice president, Andrew Johnson, to poet-journalist Walt Whitman; from soldiers' advocate Clara Barton and African American leader and Lincoln critic-turned-admirer Frederick Douglass (who called the speech "a sacred effort") to conflicted actor John Wilkes Booth—all swirling around the complex figure of Lincoln. In indelible scenes, Achorn vividly captures the frenzy in the nation's capital at this crucial moment in America's history and the tension-filled hope and despair afflicting the country as a whole, soon to be heightened by Lincoln's assassination. His story offers new understanding of our great national crisis, and echoes down the decades to resonate in our own time.

A bold and original retelling of the story of race in America Why has a nation founded upon precepts of freedom and universal humanity continually produced, through its preoccupation with race, a divided and constrained populace? This question is the starting point for Scott Malcomson's riveting and deeply researched account, which amplifies history with memoir and reportage. From the beginning, Malcomson shows, a nation obsessed with invention began to create a new idea of race, investing it with unprecedented moral and social meaning. A succession of visionaries and opportunists, self-promoters and would-be reformers carried on the process, helping to define "black," "white," and "Indian" in opposition to one another, and in service to the aspirations and anxieties of each era. But the people who had to live within those definitions found them constraining. They sought to escape the limits of race imposed by escaping from other races or by controlling, confining, eliminating, or absorbing them, in a sad, absurd parade of events. Such efforts have never truly succeeded, yet their legacy haunts us, as we unhappily re-enact the drama of separatism in our schools, workplaces, and communities. By not

only recounting the shared American tragicomedy of race but helping us to own, even to embrace it, this important book offers us a way at last to move beyond it.

While visiting New Orleans with their family, brothers Rob and T.K. are led to DePray's Curiosity Shop where they encounter century-old vampires, and are astounded to learn their beloved grandmother has a remarkable gift. Most incredible of all, T.K. is condemned to a life as a vampire, and Rob is transformed into his brother's protector, with the gift of prophecy.

The final thriller in the million-copy-selling Katie Maguire series. In the driver's seat of a Jaguar, on a country road, a good man burns. Justice Garrett Quinn should have been at a sentencing. He was one of the good ones, fighting for order in a lawless world. In a burned-out car, on the outskirts of Cork, DS Katie Maguire finds what's left of him. But this is only the beginning. The judge's death sparks a gang war fought with bullets and bombs, and civilians are caught in the crossfire. As the city spirals deeper into violence, Ireland's most fearless detective must find the courage to fight for her hometown one last time. Katie Maguire is no stranger to sacrifice – but she has lost so much already. Facing new horrors each day, Katie must decide: can she do her duty when she has nothing left to give? Praise for Graham Masterton: 'One of this country's most exciting crime novelists. If you have not read one, read them all now' Daily Mail. 'A tough and gritty thriller with an attractive principal character' Irish Independent. 'Graham Masterton is a natural storyteller' New York Journal of Books. 'Any fan of mysteries should grab this book' Irish Examiner.

This book is the outgrowth of one of J. Stephen Funk's major injury lawsuits, one in the 1970s, where the dishonesty and a "conspiracy of silence" by the medical profession supported a negligent doctor's efforts to maintain his exalted and privileged

place in society. In real life, he exposed the doctor's duplicity for all to see, and provided an orphaned child just legal compensation for the loss of her young and innocent mother. In "Last Drop of Blood," the heartless and amoral doctor, his wife and her father will stop at nothing to conceal the truth. The widowed husband and a courageous, young nurse provide the help a relentless attorney needs to expose the conspiracy. Through twists and turns, the unexpected ending reveals itself to be more just and satisfying than predictable.

NATIONAL BESTSELLER • The gripping story of Elizabeth Holmes and Theranos—one of the biggest corporate frauds in history—a tale of ambition and hubris set amid the bold promises of Silicon Valley, rigorously reported by the prize-winning journalist. With a new Afterword. "Chilling ... Reads like a thriller ... Carreyrou tells [the Theranos story] virtually to perfection." —The New York Times Book Review In 2014, Theranos founder and CEO Elizabeth Holmes was widely seen as the next Steve Jobs: a brilliant Stanford dropout whose startup "unicorn" promised to revolutionize the medical industry with its breakthrough device, which performed the whole range of laboratory tests from a single drop of blood. Backed by investors such as Larry Ellison and Tim Draper, Theranos sold shares in a fundraising round that valued the company at more than \$9 billion, putting Holmes's worth at an estimated \$4.5 billion. There was just one problem: The technology didn't work. Erroneous results put patients in danger, leading to misdiagnoses and unnecessary treatments. All the while, Holmes and her partner, Sunny Balwani, worked to silence anyone who voiced misgivings—from journalists to their own employees.
