The biggest reason your first love will always be with you is that, no matter what, it is always your only first love. The first of any event can only happen once in a lifetime, making it special in its exclusivity. No matter who you later love, or how you change over time, your first love will always be the first, for the rest of your life.

The Spectacular Now. The longer we ride the train of time, the more people we encounter and the more romantic partners we acquire. But there's something inexplicably enticing yet simultaneously comforting about our first real love. It's a double edged sword – if you end up with your first love in the long term, people will say “you don't know what love is, you've only been with one person,” but if you end up with someone else, they'll always be the One That Got Away.
