Lee M Maxwell, Save Women's Lives: History of Washing Machines, ... Washboards were also used without a tub; they could be carried to the riverside. It may seem odd to say that using soap generously was a modern, "advanced" way of tackling dirty laundry, but in 1800 soap was used economically. It was mixed into hot water for the main wash, and extra might be used for spot stain treatment, but ...

A washboard is a tool designed for hand washing clothing. The rubbing is similar to beating the clothes or rubbing them on rocks, but is gentler on the fabric. It also is similar to what a washing machine does with clothes, either with the middle agitator on a top-loading machine or the drum and ridges on a front-loading washing machine.
