www.hort.iastate.edu
Chemistry has lost one of its giants – Professor François Diederich passed away on September 23. François was a well-known organic chemist, with incredibly broad research interests that included carbon-rich acetylenic scaffolds, supramolecular chemistry, molecular recognition in chemistry and biology, medicinal chemistry, and organic materials.

Journal of Physical Organic Chemistry - Wiley Online Library
Origins of Organic Chemistry • Organic literally means "derived from living organisms" — organic chemistry was originally the study of compounds extracted from living organisms and their natural products. • It was believed that only living organisms possessed the "vital force" necessary to create organic compounds ("vitalism").
