*This is the first analysis of all of Gurdjieff’s published internal exercises, together with those taught by his students, George and Helen Adie. It includes a fresh biographical study of Gurdjieff, with ground-breaking observations on his relationships with P.D. Ouspensky and A.R. Orage (especially, why he wanted to collaborate with them, and why that broke down). It shows that Gurdjieff was, fundamentally, a mystic, and that his contemplation-like methods were probably drawn from Mt Athos and its hesychast tradition. It shows the continuity in Gurdjieff’s teaching, but also development and change. His original contribution to Western Esotericism lay in his use of tasks, disciplines, and contemplation-like exercises to bring his pupils to a sense of their own presence which could, to some extent, be maintained in daily life in the social domain, and not only in the secluded conditions typical of meditation. It contends that he had initially intended not to use contemplation-like exercises, as he perceived dangers to be associated with these monastic methods, and the religious tradition to be in tension with the secular guise in which he first couched his teaching. As Gurdjieff adapted the teaching he had found in Eastern monasteries to Western urban and post-religious culture, he found it necessary to introduce contemplation. His development of the methods is demonstrated, and the importance of the three exercises in the Third Series, Life Is Real only then, when ‘I Am’, is shown, together with their almost certain borrowing from the exercises of the Phlokalia. G.I. Gurdjieff P.D. Ouspensky A.R. Orage George Adie Mysticism Meditation Contemplation Fourth Way Hesychasm Western Esotericism”--

This unique book offers clear definitions of Gurdjieff’s teaching terms, placing him within the political, geographic and cultural context of his time. Entries look at diverse aspects of his Work, including: * possible sources in religious, Theosophical, occult, esoteric and literary traditions * the integral relationships between different aspects of the teaching * its internal contradictions and subversive aspects * the derivation of Gurdjieff’s cosmological laws and Enneagram * the passive form of “New Work” teaching introduced by Jeanne de Salzmann.

This book was written to be used in concert with whatever pagan tradition you are currently involved in. There are at least three levels to it: part one will help you strengthen the foundations of your spiritual practice, part two will ensure that you are sound in body, mind, emotion, sex, and spirit, and have developed will and ethics, and part three will lead you further into connection with your Godhood. .The tools used to do this are breath work, dream work, pendulum work, aura reading, tarot, meditation, spells, and others. The goal of the book is to help guide you through the stages of personal consciousness that will then enable you to step into inclusive consciousness—a consciousness that encompasses the personal, political, environmental, social, mental, and transpersonal. [It is this] inclusive consciousness [that] enables us to reach the limitless, the divine, Goddess or God.

Becoming an Idiot... “Everyone who decides to work on himself is an idiot in both meanings. The wise know that he is seeking reality. The foolish think he has taken leave of his senses.” John G. Bennett says. The famous “life teacher” and philosopher G. I. Gurdjieff (1866-1949) taught his developmental psychology for thirty years during daily ritual meals. In this book this special teaching gets published for the first time and is explained in a contemporary way. The “Science of Idiocy” puts out a challenge for those who are striving to get to the bottom of their own being – for those who want to become an idiot in the original sense and step up the “ladder of reason.” as Gurdjieff puts it. Bruno Martin found a key for interpreting the metaphorical descriptions of the 21 types of “Idiots.” Gurdjieff used in the old Tarot of Marseilles and compares both teachings. Teaching stories from Sufism and Zen are further illustrating the meanings. Written in an inspiring and entertaining way the book gives an introduction in Gurdjieff’s artful psychology and also instructions for conducting a ritual meal with the toasts on the idiots, which can help to win new insights into the essence of the participants.
