The design of lingerie is often seen as a mystery, even by professionals working in other sectors of the fashion industry. This book explains the processes at work and the many unexpected influences that inform the choice of color, silhouettes, and decoration. The book documents the rise of the deluxe lingerie brand. This interest in luxury labels has led many young designers to choose lingerie as a creative outlet – conscious of fashion, but also with a clear view of their own 'lingerie world'. The book features the work of 30 lingerie designers from around the world, bringing out the individuality of each designer and providing a compelling insight into their working methods. Beautifully illustrated throughout, it presents inspirational images from the designers' collections alongside their sketches and mood boards. In this book, Pamela Powell takes a very practical approach, showing how to design and construct lingerie, sleepwear, and foundation garments. Step-by-step illustrations demonstrate the basic slopers and show how to manipulate them into different styles. Advice is given about how to work with the specialty fabrics used in the industry including woven, knit, power stretch, and bias-cut fabrics. Specially commissioned photographs and diagrams are used to showcase construction techniques specific to lingerie including boning, elastic, and lace insertion, and how and where to use the myriad of closures available. A final chapter on embellishment shows how to add unique and personal touches to garments and apply that luxurious finish.

Patternmaking for Underwear Design 2nd Edition is a comprehensive patternmaking guide suitable for students, teachers and the industry. Step-by-step instruction is matched with superb illustrations, and all measurements are provided in both metric and Imperial scales. This book introduces common bra patternmaking methods widely used in the industry and offers the authors own innovative bra patternmaking method entitled Shin's method. This

# Where To Download Pattern Cutting For Lingerie Beachwear And Leisurewear

new method includes two intermediate blocks developed using the flat patternmaking concept. Shin's method enables novice patternmakers to create various bra designs from scratch with commercial fit quality. Patternmaking for Underwear Design 2nd edition elaborates the direct bra drafting further, thus the readers whose bra size is not 34B (75B) could draft their own bra according to their body measurements. Bra grading method is also added to the 2nd edition to enable the readers to grade the bra from 34B.

This is the second edition revised July 2016. The new edition includes drafting and grading directions in Adobe Illustrator and in PolyPattern Software. The Bare Essentials series is an invaluable resource for anyone entering into the field of lingerie design. This volume summarizes the basics of bra design, from sewing and construction to drafting and pattern grading; introducing these subjects in a manageable capacity. Bare Essentials is organized into three main sections based on the complexities of the information provided. Included in this book are basic patterns for sizes 30A-40F. What you will learn: - Construction methods using elastics and stretch fabrics - Manipulation of basic patterns - Pattern drafting from measurements - Developing grade rules and grading patterns - Drafting and grading on the computer

Custom bras are wonderful sewing projects. They are easy to make, fit perfectly, and can be worn every day. But until now, the techniques of custom bra making have been difficult to access. Demystifying Bra Fitting and Construction reveals the secrets of bra couturiers, teaching you what you have always wanted to know about fitting and sewing your own bras. Professional custom bra maker Norma Loehr breaks down the fitting and construction process into simple, easy to follow steps so you can get great results on your bra making projects. With easy-to-follow instructions, color photos, and a guide to sourcing materials, this book has everything you need to make your own professional looking bras in no time at

all. Whether you are a home sewer or an aspiring lingerie designer, this book is for you! "Not only does custom bra maker Norma Loehr sew wonderfully, she's smart - so her well thought out and beautifully presented work on bra making has resulted in a book that inspires and educates." Susan Khalje, Author, Bridal Couture and Linen and Cotton and Contributing Editor for Threads Magazine "I've had the privilege of testing Norma's book before its release, and it's an absolute must buy for anyone interested in sewing their own bras (seriously, there's one gem of bridge fitting advice in there alone that's worth the purchase price!)." Melissa Fehr, Fehrtrade.com

The term 'tailored' has changed as methods of manufacture and the retailing of clothes have evolved. This book demonstrates the wide range of cutting methods used to produce garments which are described as 'tailored' jackets. Although the main focus is on modern methods of producing clothing, a rich and complex cutting tradition is acknowledged and used. It is hoped that the modern garment designer will be inspired to rediscover methods that retain their validity today. The different approaches to 'tailored' cutting are described under three headings: bespoke cutting, engineered cutting and style cutting. The rich heritage of the latter came from the tremendous creativity that was unleashed by women's emancipation at the beginning of the twentieth century and the merging of tailored styles with fashionable clothing. The section on style cutting has therefore derived some of the cutting techniques from that period, thus demonstrating how they can be applied to current methods of production.
