Corruption in Mexico has permeated several segments of society - political, economic, and social - and has greatly affected the country's legitimacy, transparency, accountability, and effectiveness. Many of these dimensions have evolved as a product of Mexico's legacy of elite, oligarchic consolidation of power and authoritarian rule. Transparency International's 2019 Corruption Perceptions Index ranks the country 130th place out of 180 countries.

Corruption in Mexico - Wikipedia  
Corruption has reached endemic proportions in Mexico; several state governors have been ousted from office and face enormous corruption charges: Many of them have fled the country (BTI 2018). The government established Tramitanet (in Spanish) to allow for the electronic processing of transactions within the bureaucracy and to thereby reduce the risk of bribery (ICS 2017).

Mexico's fight against endemic corruption gets real  
The theme of corruption in Mexico is large, complex, and relatively unstudied. At any rate, while historians, political scientists, sociologists and others make frequent (passing) reference to corruption, there are few studies devoted specifically to the theme. 1 Attempting a rapid résumé therefore presents problems; and these may (or may not) be exacerbated by the fact that my knowledge of the extensive comparative literature on corruption is quite limited. 2 What I shall do, therefore ...
