Woven cloth is normally much longer in one direction than the other. The lengthwise threads are called the warp,

Read Book Principles Of Weaving

and the other threads, which are combined with the warp and lie widthwise, are called the weft (synonyms are “filling,” “woof,” and “shoot,” or “shute”). An individual thread from the warp, of indefinite length, is called an end; each individual length of weft, extending from one edge of the cloth to the other, is called a pick, or shot.
