Basic Economic Problems Any society, regardless of its size, degree of development and political system, tries to solve their the basic economic problems of deciding how to satisfy the unlimited needs of its market through limited Resources. Below is the list of basic economic problems that must be in your mind as an entrepreneur.

List of Basic Economic Problems and their Solution

Hence, by Theorem 4.11, f is differentiable. The Bellman equation for this problem is $v(k) = \max_y [p(k)y - (1-\delta)k + v(y)]$ so the Euler equation (Inada conditions rule out corner solutions) is $q = \frac{p'(k)y}{1+(1-\delta)q}$ (5.1) where y is the value of y that satisfies this equation.

Solutions Manual for Recursive Methods in Economic Dynamics

Macroeconomic Theory Dirk Krueger1 Department of Economics University of Pennsylvania January 26, 2012 11 am grateful to my teachers in Minnesota, V.V Chari, Timothy Kehoe and Edward Prescott, my ex-colleagues at Stanford, Robert Hall, Beatrix Paal and Tom Sargent, my colleagues at UPenn Hal Cole, Jeremy Greenwood, Randy Wright and

Macroeconomic Theory - SSCC

Economic theory assumes that agents behave in line with the interests of the principal. Theories do assume an agency problem but they believe that it can be sorted out. However, that is rarely the case. Consider the case of the largest and most wasteful expenditures in the world and you will find that the money is spent by the government.
