Real World Nursing Survival Guide: Pathophysiology (Saunders Nursing Survival Guide) by Gutierrez PhD RN BC-ANP BC-CNS Dr., Kathleen Jo, Peterson RN MN AOCN, Phyllis G. (January 16, 2002) Paperback Paperback – 1 Jan. 1700

"This guide offers a visual, engaging approach that clearly explains topics such as: equipment and infusion devices, principles of peripheral and central venous therapy, peripheral and central complications, and special concerns for pediatric and older adult patients." -- WEBSITE.

You've passed your NCELEX, survived your first interview, and just landed your first nursing job! Now what? This new grad RN survival guide was written to help you navigate your first nursing orientation. From what to expect on your first day to surviving your first code blue, WWFD aims to help you navigate the reality shock as you transition from nursing student to bedside RN. Among other things, you will find advice on how to give an effective hand-off report, cluster your care, efficiently complete up to five patient assessments in less than three hours, and learn how to page a physician like a BOSS. Using humor and practical real-world nursing experience, this short and sweet book aims to take you from new nurse to Florence Nightingale status in less than three months!

"The book begins with an overview of five main concepts: cardiac output, stroke volume, preload, afterload, and contractility. It discusses equipment used for specific procedures, followed by discussions of specific aspects of hemodynamic monitoring including cardiac output, intra-arterial, central venous, pulmonary artery, and mixed venous oxygenation." -- WEBSITE.

An addition to the Real World Nursing Survival Guide series, this unique resource discusses the most common health care problems seen in the critical and trauma/emergency settings--using a systems approach with a focus on current practice standards. Each chapter offers a consistent disorder format and covers a wide-range of information from emergent to critical care nursing.

Covering the most difficult subject areas, this book is jam-packed with tools and information on pharmacology. The book includes over 150 NCLEX-style questions and answers. Plus, several icons help direct students to important information including urgent information, a calculations icon, lifespan icon, culture icon and web links icon.

Providing students with additional information on this extensive and especially difficult subject area, this guide features visual cues to help students retain information by expressing the material in a fun, engaging manner with activities created to appeal to students of different learning styles. NCLEX(Review questions follow the end of each chapter to help check the students' understanding of key topics and to perform necessary review.

Part of the popular Saunders Nursing Survival Guide series, this book prepares you to manage the most common health care problems you'll see in critical care, trauma, or emergency settings. Each chapter is organized from the most immediate and life-threatening conditions to less emergent critical care conditions. Its lighthearted, cartoon-filled approach simplifies difficult concepts, covering each body system in terms of current practice standards. Consistent headings break content into four succinct areas of review: What (subject) IS, What You NEED TO KNOW, What You DO, and Do You UNDERSTAND? Clinical terms and shorthand expressions are highlighted, exposing you to terminology used in the hospital setting. A color insert illustrates concepts and principles of critical care and emergency nursing, including various complications Mnemonic devices aid your memory and interactive activities help you learn, with exercises including fill in the blank, matching, word jumbles, true/false, and crossword puzzles. Special icons help you focus on vital information: Take Home Points help you prepare for clinical rotations. Caution notes alert you to dangerous conditions and how to avoid them. Lifespan notes point out age-related variations in signs and symptoms, nursing interventions, and patient teaching. Culture notes cite possible variations related to a patient's cultural background. Web links direct you to Internet resources for additional research and study. What You WILL LEARN learning objectives help you identify quickly the content covered and goals for each chapter. NCLEX™ examination-style review questions at the end of each chapter allow you to test your understanding of content and practice for the Boards. Cartoon characters with brief captions help to better explain difficult concepts. Margin notes are streamlined for ease of use and effectiveness. Content updates reflect current practice and emergent situations, including increased focus on disaster preparedness, code management, updated ACLS guidelines, and hypertension.
