School buses that have been converted into mobile living spaces — known as skoolies — are a natural extension of the tiny house craze. Buses are not only easier and safer to drive than an RV, they provide a jump-start on the conversion process with frame, roof, and floor already in place. Experienced builder Will Sutherland, whose creative school bus conversions have been featured in *Road and Track* and *Popular Mechanics*, is behind the wheel of this alluring look at life on the road. From Paris and London to New York and eventually the American Southwest, Carling and his undercover agent doggedly track the evidence trail, hoping to put together an irrefutable case that can be handed over to federal authorities.
