I have a Ruud Achiever Series Super Quiet 80 furnace that was installed in 2005. It runs AC just fine, but when I try to get it to run heat, it just hums and never kicks on. I have removed the doors, and the amber Flame light never turns on. After a few seconds, the left green light begins blinking twice.

This Rudd Super Quiet 80, 2005 furnace has been giving me problems for the 2 years that I have owned this house. It would not start 8 months ago, so a technician came out and checked it out, but it was working fine when he arrived. He then shookthe wires and it stopped and started, so he crimped all of the wires and then it worked good until 3 weeks ago, when would not start in the morning but ...
