[3 full-length practice tests with detailed answer explanations [Hands-on experience with all three question types in each content chapter [Complete study sheet of core formulas and terms This eBook edition has been optimized for on-screen learning with cross-linked questions, answers, and explanations.

SAT® Chemistry Subject Test Crash Course - Gets You a Higher Score in Less Time Our Crash Course is perfect for the time-crunched student, the last-minute studier, or anyone who wants a refresher on the subject. Are you crunched for time? Have you started studying for your SAT® Chemistry Subject Test yet? How will you memorize everything you need to know before the exam? Do you wish there was a fast and easy way to study for the test AND raise your score? If this sounds like you, don't panic. SAT® Chemistry Crash Course is just what you need. Crash Course gives you: Targeted, Focused Review - Study Only What You Need to Know The Crash Course is based on an in-depth analysis of the SAT® Chemistry course description and actual test questions. It covers only the information tested on the exam, so you can make the most of your valuable study time. Our easy-to-read format gives you a crash course in: structure of matter, states of matter, reaction types, stoichiometry, equilibrium, and reaction rates. Expert Test-taking Strategies Our experienced chemistry teacher shares test tips and strategies that show you how to answer the questions you'll encounter on test day. By following our expert tips and advice, you can raise your score. Take REA's Online Practice Exams After studying the material in the Crash Course, go online and test what you've learned. Our practice exam features timed testing, diagnostic feedback, detailed explanations of answers, and automatic scoring analysis. The exams are balanced to include every topic and type of question found on the actual SAT® Chemistry Subject Test, so you know you're studying the smart way. Whether you're cramming for the test at the last minute, looking for extra review, or want to study on your own in preparation for the exam - this is one study guide every SAT® Chemistry student must have. When it's crucial crunch time and your exam is just around the corner, you need SAT® Chemistry Crash Course.

320 SAT Chemistry Subject Test Problems gives you the most effective tips, tricks and tactics from Get 800, a prep company of experts dedicated to their students achieving their dream SAT scores. The material in this book includes: - 320 SAT chemistry subject test problems arranged by topic and difficulty level - solutions with complete explanations for 160 problems - several different solutions for most of the 160 solved problems - 160 problems with an answer key for solving on your own

Expert guidance on the Chemistry SAT Subject Test Many colleges and universities require you to take one or more SAT II Subject Tests to demonstrate your mastery of specific high school subjects. McGraw-Hill's SAT Subject Test: Chemistry is written by experts in the field, and gives you the guidance you need perform at your best. This book includes: Full-length sample tests Diagnostic exams to help students pinpoint strengths and weaknesses Hundreds of questions with complete explanations Step-by-step reviews of all topics covered in each exam Strategies to help students get their best score
