merchants, farmers, and parents, and a comparison of how these challenges were addressed in different times and places. An exhaustive and balanced treatment of themes such as culture, politics, and economy, with an emphasis on interaction. Explicit attention to skill acquisition in organizing information, cultural sensitivity, comparison, visual literacy, integration, interrogating primary sources, and critical thinking. A focus on historical "episodes" that are carefully related to each other. Through the use of such devices, the book shows the cumulative effect of thematic interactions through time, communicates the many ways in which societies have influenced each other through history, and allows us to compare and contrast how they have reacted to similar challenges. They also allow the reader to transcend historical controversies and can be used to stimulate class discussions and guide student assignments. Described as the perfect fusion of poetry and garage band rock and roll (the original concept was "rock and Rimbaud"), *Horses* belongs as much to the world of literary and cultural criticism as it does to the realm of

musicology. While *Horses* pays homage to the record's origins in the nascent New York punk scene, the book's core lies in a detailed analysis of Patti Smith's lyrics and includes discussions of lyrical preoccupations: love, sex, gender, death, dreams, god, metamorphosis, intoxication, apocalypse and transcendence. Philip Shaw demonstrates how *Horses* transformed the possibilities of both poetry and rock music; and how it achieved nothing less than a complete and systematic derangement of the senses.

More than eighty recipes for grilling, smoking, roasting, and baking on the world's top-selling kamado-style cooker by the bestselling author of *Flavorize*. Both Ray and Big Green Egg have come a long way in their 15-year relationship, and it's been a wild ride! Next up is the chapter all EGGheads have been waiting for, How does Dr. BBQ set his EGG up to cook all the things he's cooked in his 30-year BBQ and grilling career? All the tips and tricks are here in the chapter called The EGG Carton. Then the book gets serious about recipes with chapters covering all the diverse things that the EGG can do. Dr. BBQ puts his spin on Grilling with great recipes like Crispy Lobster Quesadilla and the Bacon and Egg Cheeseburgers. Smoking is next with Dr. BBQ firing up classics like Dry Rubbed St. Louis Style Ribs and new ideas like Dr. BBQ's Smoked Meatball Gumbo. Baking is where you'll learn how to make Dr. BBQ's favorite Thin Crust Pizza With Italian Sausage, Summertime Zucchini Pie, and Blueberry French Toast Casserole. Last but not least is Roasting where Dr. BBQ knocks it out of the park with a Porchetta Style Pork Roast and Happy Thanksgiving Turkey.

Affective Health and Masculinities in South Africa explores how different masculinities modulate substance use, interpersonal violence, suicidality, and AIDS as well as recovery cross-culturally. With a focus on three male protagonists living in very distinct urban areas of Cape Town, this comparative ethnography shows that men's struggles to become invulnerable increase vulnerability. Through an analysis of masculinities as social assemblages, the study shows how affective health problems are tied to modern individualism rather than African 'tradition' that has become a cliché in Eurocentric gender studies. Affective health is conceptualized as a balancing act between autonomy and connectivity that after colonialism and apartheid has become compromised through the imperative of self-reliance. This book provides a rare perspective on young men's vulnerability in everyday life that may affect the reader and spark discussion about how masculinities in relationships shape physical and psychological health. Moreover, it shows how men change in the face of distress in ways that may look different than global health and gender-transformative approaches envision. Thick descriptions of actual events over the life course make the study accessible to both graduate and undergraduate students in the social sciences. Contributing to current debates on mental health and masculinity, this volume will be of interest to scholars from various disciplines including anthropology, gender studies, African studies, psychology, and global health.
