The China Challenge: Shaping the Choices of a Rising Power ...

In The China challenge, Thomas J. Christensen seeks to rise above this divide and provide balanced, carefully considered suggestions about the policy that the US should pursue towards China. For this book has to be seen as a contribution to the ongoing debate in Washington regarding how to deal with an ever-more-powerful Beijing.

China challenge: shaping the choices of a rising power. By ...

The China Challenge by Thomas Christensen is something of a master stroke, deftly identifying and recounting modern Sino-American relations, their associated problems, and approaches to solve them. Much effort is given to understanding China, China's Rise, and what that means for the United States.

The China Challenge: Shaping the Choices of a Rising Power ...

Download File PDF The China Challenge Shaping The Choices Of A Rising Power

The China Challenge shows why China is nowhere near powerful enough to be considered a global "peer competitor" of the United States, but it is already strong enough to destabilize East Asia and to influence economic and political affairs worldwide. Despite China's impressive achievements, the Chinese Communist Party faces enormous challenges.

Christensen's latest book, "The China Challenge". Shines argues that holes exist in the author's main thesis. In "The China Challenge: Shaping The Choices of a Rising Power", author Thomas J. Christensen makes the argument that, in order to convince China to become a responsible stakeholder globally, the U.S. needs to use a hybrid strategy of deterrence and assurance.

Abstract: Many see China as a rival superpower to the U.S. and imagine the country's rise to be a threat to U.S. leadership in Asia and beyond. Arguing against this zero-sum vision, *The China Challenge* describes a new paradigm in which the real challenge lies in dissuading China from regional aggression while encouraging the country to contribute to the global order.
