Written by Brigette Tasha Hyacinth, a leadership and management expert, the book is divided into three sections: (1) "Rise of automation, robotics and Artificial Intelligence (AI)", (2) Leadership in an age of disruption" and. (3) "The future of leadership". The book asks a couple of controversial questions: "Will robots take your job?", "Will AI replace leaders?", whilst attempting to explain what "ethical leadership" and "the digital leader" mean.

The Future of Leadership: Millennials at the Helm. Progress marches on. And sometimes it breaks into a gallop. Consider how radically technology has disrupted the way we communicate, the way we perform our jobs, and the way commerce is transacted over the last decade. The proliferation of mobile devices has dramatically transformed how we access information and conduct business, and even where and when we work.

**The Future of Leadership: Millennials at the Helm | Rise**

Unprecedented technological advancements coupled with rapidly evolving consumer and employee needs, call for a major revision of the concept of leadership. In the future, leadership will be defined by balancing numerous identities - inspirer, coordinator and champion of those who work for, and with, them. Are you and your business ready?
