Full of wit and delicious observations, Mrs Funnybones captures the life of the modern Indian woman a woman who organizes dinner each evening after having been at work all day, who runs her own life but has to listen to her mummyji, who worries about her weight and the state of the country. Based on Twinkle Khanna's super-hit column, Mrs Funnybones marks the debut of one of our funniest, most original voices.

Some people ask God for temporal gifts. In the author's case, he has never asked God for anything. But being a devout Hindu for twenty years was only bringing misery, disease, poverty, hunger, and social ostracization in his life. There had to be a better path for him to follow. In his forties he started to engage with the Light—Christ—that he had done so in his formative years. He just asked for his will to be done in his life. He found more solace and less confusion and more clarity with God. This book relates the author's journey, an ongoing one, towards Jesus Christ, his One and Only LORD and Savior now.

Magical' KANEZ SURKA 'Funny, intense, thoughtful' FARAH BASHR 'A rare, precious memoir' NATASHA BADHWAR When Shubnum Khan signed up for a photoshoot as part of an art project in college, she hadn't imagined that the photographs would be plastered on billboards and advertisements all over the world. Two years on, her smiling face had sold condos in Mumbai and Florida, drawn subscribers to dating websites and convinced desperate customers of the supposed wonders of skin-lightening creams. This is but one of the many astounding misadventures she chronicles in How I Accidentally Became a Global Stock Photo and Other Strange and Wonderful Stories. In this part memoir, part travelogue, Shubnum takes you on unpredictable journeys far from her family home in South Africa. Whether it's going off the grid in the Himalayas, getting pulled out of the ocean in Turkey or becoming a bride on a rooftop in Shanghai, she is quirky, moving and vulnerable in what she shares. All the while, she reflects on what it means to be a woman, especially a single Muslim woman, in the modern world. Her book is a helpful reminder that once 'you step off the edge, anything can happen'.

There's the Times of India. And there is Jug Suraiya. A prolific writer. They go together, like horse and carriage. The Times of India, one of the largest-selling daily newspapers in English has been a gracious host to Jug's opinions. This collection of his writings from the column - Second Opinion- is proof of his versatility. There is humour, of course, but his tone is often one of suppressed anger elegantly released. And the range of his interests is spread over the kind of wide canvas that you rarely find in Indian journalism. Lean back and enjoy the book if you are a Jugular Regular. Discover him, if you are not.

Tough Choices & Hard Decisions is a timely book written by an author with extraordinary experience in policymaking, who gives a clear direction for the future of the Indian economy as we move through the impact of COVID-19. Author-Prof. Rajendra, writes why COVID-19 is a once in a lifetime opportunity for governments, business organizations, and professionals to relook, reposition, and transform to the "new normal". Otherwise, they may not remain in business. For India, it is a golden opportunity to move to a Distributed Growth Model (The MAST Model). It further suggests that India needs to make some hard decisions to propel its economy towards exponential growth. Packed with original ideas, extensive research, and data, this book suggests path-breaking steps to revive the economy and sets a long-term vision for this nation. Written with authority and conviction, this book gives a clear direction and guidance to the government—on priorities, policies, and programs and on how to innovatively finance growth. It sets the vision for India's future, along with the granularity of the programs to achieve it. Tough Choices & Hard Decisions has the potential to change the lives of 135 crore Indians and transform India into a Middle-Income Country in the next five years, thereby taking it to the league of developed countries over the next 25 years.

How do you build a scientifically and technologically strong modern nation with limited means and resources? Indian scientists faced this challenge seven decades ago when the country became independent and confronted a world rapidly advancing in science and technology. In the years that followed, they battled poor funding and archaic regulations to build India's science infrastructure from scratch. This fascinating narrative captures the story of the struggles and triumphs of these leaders of science and the world-class institutions they founded. From the cosmic-ray experiments at the Kolar Gold Fields to ISRO's stunning space observatory built under severe constraints, from the construction of one of the world's largest radio telescopes in Ooty to the development of structural biology at IISc and, most recently, the significant contributions of the country's scientific institutions towards tackling a global pandemic - Space. Life. Matter. brings to readers the path-breaking advances made by India's scientists to original research and what they mean to the nation's progress. Deeply informed, enlightening and inspiring, this singular, comprehensive account of the pride of place that Indian science occupies in the world is essential reading for all.

Trail of the Tiger tracks the personal and political journey of Uddhav Balasabeh Thackeray against the backdrop of the changing narrative of Hindutva, and new constanations to Hindutva's subnational plot, with the rise of Prime Minister Narendra Modi as a new Hindu Hriday Samrat. The trail of Uddhav Thackeray from a professional advertising photographer to Maharashtra's Chief Minister is not just his story. It is the story of saffron 'tiger' Balasaheb Thackeray's own family Mahabharta for political power and legacy that left the patriarch helpless during his sunset years. It is the story of one of the biggest upheavals in Indian politics where breaking a 30-year-old alliance with the Bharatiya Janata Party (BJP), the Shiv Sena joined Sonia Gandhi's camp, holding Sharad Pawar's finger. It is also the story of the Rashtriya Swayamsevak Sangh's (RSS) dilemma to deal with the tug of war in the Hindutva camp. Based on news analysis, Trail of the Tiger unpacks media content and explores intertextuality to bring readers the authentic account of the Shiv Sena's saffron to secular trajectory under the leadership of Uddhav Balasabeh Thackeray.

National Bestseller Named a Most Anticipated Book by: The New York Times \* Buzzfeed \* Time.com \* OprahMag.com \* The Millions \* The Rumpus \* LitHub \* Paperback Paris \* The Lily (Washington Post) \* Ms. \* LAMBDA Literary A gripping set of stories about the forces that shape girls and the adults they become. A wise and brilliant guide to transforming the self and our society. In her powerful new book, critically acclaimed author Melissa Febos examines the narratives women are told about what it means to be female and what it takes to free oneself from them. When her body began to change at eleven years old, Febos understood immediately that her meaning to other people had changed with it. By her teens, she defined herself based on these perceptions and by the romantic relationships she threw herself into headlong. Over time, Febos increasingly questioned the stories she'd been told about herself and the habits and defenses she'd developed over years of trying to meet others' expectations. The values she and so many other women had learned in girlhood did not prioritize their personal safety, happiness, or freedom, and she set out to reframe those values and beliefs. Blending investigative reporting, memoir, and scholarship, Febos charts how she and others like her have reimagined relationships and made room for the anger, grief, power, and pleasure women have long been taught to deny. Written with Febos' characteristic precision, lyricism, and insight, Girlhood is a philosophical treatise, an anthem for women, and a searing study of the transitions into and away from girlhood, toward a chosen self.

As commercial surrogacy in India dominates public conversations around reproduction, new kinds of families, and changing trends in globalization, its lived realities become an important aspect of emerging research. This book maps the way in which in vitro fertilization (IVF) specialists, surrogacy agents, commissioning couples, surrogate mothers, and egg donors contribute to the understanding of interpersonal relations in the process of commercial surrogacy. In this book, Majumdar draws from a context that is enmeshed in the local-global politics of reproduction, including the ways in which the transnational commercial surrogacy arrangement has led to an ongoing debate regarding ethics and morality in the sphere of reproductive rights. In weaving together the diverse, often conflicting experiences of individuals and families, the transnational commercial surrogacy arrangement comes alive as a process mirroring larger societal anxieties with reference to technological interventions in intimate relationships. It is these anxieties, dilemmas, and their negotiations to which the book is addressed.
