Schools are changing in response to this reality, and in *Transforming Schools Through Project-Based Deeper Learning, Common Core Standards, and Performance Assessment*, Bob Lenz, Justin Wells, and Sally Kingston draw on the example of the Envision Education schools, as well as other leading schools around the country, to show how the concept of deeper learning can meet the need for students who are both college and career ready and engaged in their own education. In this book, the authors explain how project-based learning can blend with Common Core-aligned performance assessment for deeper learning.
