An unprecedented look at Canada's history presented in a spectacular, colorful book The history of Canada is inseparable from the history of Canadian Pacific. The company's advertising and publicity strategies and their influence on the country's perception can be regarded as a very early example of the concept of nation branding. The deep interdependence between a private company's economic and strategic interests and a newly formed nation's identity makes this arrangement unique. Canadian Pacific not only built the nation's first transcontinental railway, a prerequisite for Canada's political unification in the 19th century; it quickly expanded to become the world's largest transportation conglomerate that for many decades formed the backbone for Canada's economic development. Efficient railroad and global shipping services were complemented by numerous activities that attracted immigrants and tourists to Canada, including the famous landmark hotels designed in what is now referred to as Canadian Chateaux Style: Chateaux Frontenac, The Banff Springs Hotel, Chateaux Lake Louise, and many others. A distinct Canadian national identity was still in its infancy in the 19th century, and various stereotypes linked with Canada today are the direct result of decisions made by the designers and artists whose work is portrayed in the book and by Canadian Pacific's executives. In the context of these identity building processes the book showcases the significance of commercial art and advertising pointing far beyond their trivial function as promoters of a commodity or service. Professor Marc H. Choko's concise and compelling narrative is brought to life by more than 600 carefully selected historic photos, illustrations and documents that mirror Canadian Pacific's widespread activities and unusually diverse clientele, ranging from the adventurous travelers of the late 19th century to immigrants in search of a better future, from wealthy cruise passengers to big game hunters, from outdoor enthusiasts to airline customers starting in the 1940s. No expense has been spared to reproduce this critical part of Canadian history: the publisher sent their production manager to Canadian Pacific's corporate archives in Montreal to supervise digitalization and record the properties of the originals reproduced in this book, taking note of any special colours or other significant characteristics. Similarly, many museums and private collectors cooperated to allow for a book that reproduces all commercial art with unparalleled accuracy and vivacity. Conceived by internationally recognized art book publisher Callisto and designed by distinguished Berlin-based designer Yvonne Quirnbach, Canadian Pacific: Creating a Brand, Building a Nation was produced in a renowned printing facility in northern Italy on deluxe 200g Fedrigoni paper. The Premium Edition is also available as a Collector's Edition, limited to 999 copies and presented in a grand clamshell case hand-crafted in Berlin, Germany and designed by Yvonne Quirnbach, with a wood veneer cover symbolizing the natural beauty of Canada. (See ISBN 9783981655032.)

The Chainsaw Operator's Manual is an essential safety tool for chainsaw operators. It is the ultimate guide to basic chainsaw operating techniques covering safety, maintenance and cross-cutting, but not tree felling. Detailed diagrams illustrate horizontal, vertical and boring cuts, as well as trimming and cross-cutting techniques. Safety considerations are discussed, including workplace safety, occupational hazards, kick-back and identifying dangerous trees. An explanation of the 'tension' and 'compression' forces in timber is also provided to help you understand where to begin cutting to avoid jamming the saw. The book covers chainsaw maintenance in detail, explains all aspects of the equipment and helps you select the right chainsaw and personal protection equipment for your needs. Trouble-shooting charts are included to help you solve operating problems. This manual has been updated to take into account the most recent changes in nationally accredited competency standards. It is a must-have for anyone operating a chainsaw.
